## 1. What you must know: Your Church!

Let us keep this as simple as we can, if you had ever thought of grabbing a greater opportunity to growing your church community and reaching to a wider population, you may have thought of setting up an online presence for your Church just like Chris Onyakhilome, Emma Ukpai and other ministries. If you had never, then you are lucky this offer is coming to you!

Technology has revolutionized the way churches connect with the community. In fact, people often wonder how many men of GOD run a church without using the Internet. Many Evangelists had begun their e-ministries when the Internet was in its infancy, and no one knew exactly where it would lead. Today, congregations use church websites, email, blogs, social networking sites and many other forms of communication to plan, manage, disseminate GOD's word and run churches. While these are all great communication tools, rarely do we stop to think about the cost of achieving the aim – this is where Fasmicro (Nig.) Ltd comes into play.

## 2. Our Web Development Proposal: For your Church!

Fasmicro Nig. Ltd has mapped out a scheme to build rich web site for as much as over 100 religious communities in Imo state at an affordable pricing, and your ministry is about becoming a beneficiary of this program. HOW? – only for Churches, ministries and Christian Based Organizations; we work with you to build a suitable budget for your church and we proceed to develop your web portal for you at the price you think you can afford. Our websites has been progressively valued by our clients at over NGN 350,000! But we give it to you at the value of your budget.

## 3. What Next: How you can get it - ?

Complete and return the form attached below to our office. We will commence your Churches website as soon as we know your budget. A budget planning table is included in the form – fill it correctly to help us know your budget for your request.

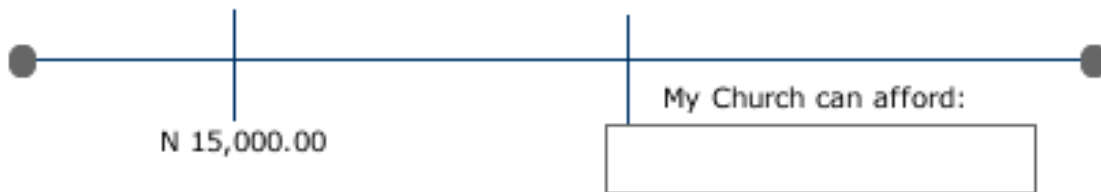

#### 4. Cost

Our web design plan comes in three packages all suitable for your organization but with varying features as you can see from the plan and costing below. We stand in the position to advice you on the best package to suite your Church; however additional (optional) features and plug-ins are your sole choice and attracts additional development cost.

Churches' Connect Basic Plan	Churches' Connect Gold Plan	Churches' Connect Diamond Plan
<p>The basic plan is basic for static a solid but less dynamic website portal for your Church. This package comes with no database. Features include the items listed below &gt;&gt;</p> <hr/> <ul style="list-style-type: none"> <li>➤ Email Accounts</li> <li>➤ No Database</li> <li>➤ Feedback to email</li> <li>➤ Photo Gallery</li> </ul>	<p>The Gold plan is a medium scale website and thus requires appreciable resources to control heavy database, data services and web contents. Let us know your Budget: How much are you willing to invest in your Organisation's online presence? We will do it at that price

This offer is neither a work of Charity nor a non-goal oriented offer – as such it limited to only 100 organizations. From the Budget bar, N15,000.00 (Fifteen thousand Naira only) is set out as the annual site maintenance charge. This amount must be added to your budget and must be paid annually by your organization for site maintenance. Simply enter your budget in the space provided. Remember: if your budget is N9,850, it mean you will pay a total of N9,850.00 plus N15,000.00 annual charge = N24,850.00.
